A fishing-lake near Varde in Jutland

Hebo lake is a fish pond of about 7,500 m2 and with a depth down to 3 meters. This lovely fishing lake is shaped like a horseshoe and therefore offers plenty of fishing spots. You can fish both around the lake and on the peninsula in the middle of the horseshoe.

There are tables and benches around the lake. There are trash cans, cleaning table, toilet and a new shelter.

There are good parking facilities.

In the lake you can fish for different kinds of trout

You can pay with cash. There is no catch-limit.

The fishing lake at Hebo offers the possibility of accommodation. Choose to camp or stay overnight in the shelter at the fishing lake. We have made room for motorhomes, caravans and tents. It is possible to have elektric power, if desired.

And for the really tough ones, we have set up two shelters for accommodation "almost in open air".

Furthermore, a new bathroom is available.

We have created a form to be completed. Payment can be made in cash in the box

Questions regarding accomodation can be directed to Michael J. Nielsen, phone number 2244 3544
